

Assessment Tomorrow

Member of UK India Business Council

will be running a series of seminars in

Bangalore 10th January 2011 (in association with the Bangalore Chamber of Industry and Commerce)

Mumbai 13th January 2011

Dubai – 17th January 2011

Also coming:- **Singapore** – 2nd/3rd June 2011 – two day conference

Chennai and Pune – Spring/Summer 2011 *locations, venues and dates to be confirmed*

These seminars will showcase how innovative, 21st century techniques like mobile learning, e-Assessment (the use of IT to measure skills and knowledge), web2.0 etc., can support learning and skills development and provide robust and reliable methods for developing the talent pool. These seminars will be sponsored and supported by UK Trade and Investment and Assessment Tomorrow is a member of the UK India Business Council.

www.assessmenttomorrow.com

Technology is making a major impact on the ways that learning and assessment is delivered in the 21st century. Mobile learning and assessment is providing the opportunity to exploit the latest telecoms. The take up of e-Assessment is increasing world-wide and is defined as the use of technology to measure skills, knowledge and understanding. Within education (from the school room to the workplace), trainers, government agencies and assessment providers are actively engaged in using technology based learning and development solutions that enable them to provide reliable, flexible education and assessment for learners, students and employees. These seminars examine the leading edge of these developments and how they apply to the complete working and learning pyramid.

Assessment Tomorrow (www.assessmenttomorrow.com) is one of the leading:

- international organisers of conferences and seminars,
- providers of consultancy services in the field of e-Assessment as well as being a
- an acknowledged adviser to education, industry and government on the selection and introduction of e-Assessment and related technologies

Drawing on expertise from the UK, Europe and worldwide, it manages projects and organises conferences and seminars aimed at informing and assisting policy makers, assessment developers and providers. Assessment Tomorrow events cover implementing e-Assessment in the work place and in the classroom and provide the opportunity to understand and successfully implement e-Assessment solutions, debate the issues and find out about the latest developments.

Opportunities to participate: We are now seeking partners to work with on developing the seminars. Opportunities exist for speaking roles, sponsorship and other forms of support and we would be happy to discuss these exciting possibilities.

Sponsored and supported by UK Trade and Investment

Seminar Overview

The series of one day and half day Briefing Seminars is being run by Assessment Tomorrow in partnership with UK Trade and Investment. The seminars are also supported by TVET UK and local and UK organisations. These seminars will be presented at prestigious locations in the Middle East and India and targeted at government education and training agencies and policy makers, educational managers and the heads of industry and commerce. The delegates will be selected and invited by Assessment Tomorrow in partnership with UK Trade and Investment and will be key players in the local/regional education and training sector. An audience of between 40 to 80 delegates will be expected for each seminar.

The seminars will examine the case for e-Assessment and related technologies for learning and development and provide a forum to discuss how e-Assessment can be applied successfully to the development of skills and knowledge assessment and the bridging of the skills gap within the local education and industrial context, using local and UK experience.

Assessment Tomorrow will design and run the proposed seminars. They will also include contributions from Assessment Tomorrow, UK Trade and Investment and TVET UK with high profile local speaker(s) and major suppliers in the arena of learning and computer based testing and assessment. The speakers will have extensive experience and knowledge to share with the delegates.

TVET UK and Assessment Tomorrow are working together on a programme of seminars, conferences and exhibitions. Their joint experience and expertise will enable UK education and training organisations to enhance development opportunities across the globe in skills development and innovative assessment

Objectives

Our objective is to help organisations answer the following questions:

- How to bridge the **skills gap** and cope with the increasing numbers and the demands of industry, customers and the economy?
- What are the innovatory approaches to Skills Development offered by 21st Century technologies?
- How can the technology assist to recognize and develop the right **talent**?
- What are the requirements to reach the **rural** as well as the **urban** work-force?
- Who will we derive the maximum **benefit** from the new technologies of skills assessment and development?
- When can the **technology** provide reliable and cost effective measurements of skills and competencies?
- How can assessment and technology support **learning, training and professional development**?

The format of the day will be opening addresses by UK Trade and Investment setting the scene. and from a senior figure from a policy making organisation. This will be followed by a series of presentations put together by Assessment Tomorrow and involving question and answer sessions. These presentations will include:

- how the new technologies such as advance e-Assessment works
- the benefits and costs
- best practice, and leverage of the technology to develop skills and capabilities amongst teaching staff and learners
- impact on ALL learners and trainees
- impact on teaching and learning strategies
- impact on institutions and the management of institutions and programmes of learning and training
- the tools, techniques and technologies available
- managing the change process

Sponsored and supported by UK Trade and Investment

Sponsored and supported by UK Trade and Investment

The Team/Seminar Directors

Martyn Roads is an independent education and assessment consultant. He spent 13 years in Further Education, developing and managing a wide range of vocational programmes before joining BTEC in 1994. For the past 8 years, Martyn has been researching and implementing the use of IT in assessment. Martyn was co-author of the Qualification and Curriculum Authority’s (QCA) “Use of ICT in Assessment” report to the Department for Education and Skills in 2002 and has worked with QCA on a number of projects including supporting the production of the e-Assessment – Effective Practice Guide aimed at supporting the use of e-assessment in the QCF. Martyn has also undertaken a number of other projects related to the development of vocational assessment development for awarding bodies. Martyn was also Chair of Becta’s e-assessment advisory group.

Jeff Ross is an Independent Prince II project manager and consultant supporting clients managing the development and introduction of IT systems to meet business and administrative needs. His fields of expertise include e-Assessment, e-learning and the use of IT and internet technologies in the education, training and human development fields. Previously he was a senior manager with a major awarding body, where he was responsible for change management programmes associated with the introduction of ICT solutions to the delivery of education services and qualifications. His background is in IT, education, publishing, logistics and business operations

We would welcome the opportunity to discuss the seminars and opportunities to speak, support or sponsor what is one of the most exciting events in the e-Assessment calendar. Details of standard and/or bespoke sponsorship packages are attached.

Assessment Tomorrow is proud to be working with UK Trade and Investment for this series of ground-breaking, high profile seminars. Companies interested in supporting or attending the seminars may like to contact their local UK Trade and Investment office to discuss the support they can provide to companies looking to expand into overseas markets. (www.ukti.gov.uk).

Please feel free to call us if you wish to discuss this exciting opportunity in more detail.

Sponsorship Opportunities include

This series of seminars will be of great marketing and positioning benefit to companies with an interest in any aspect of e-Assessment and innovative approaches to learning and assessment.

The seminars and conferences of Assessment Tomorrow provide a unique opportunity to present to and network with key people in the national and local education and training agencies and other organisations in India, Middle East and South East Asia.

All these markets are keen to learn about skills development, education and training solutions and approaches taken in the UK and home markets.

Assessment Tomorrow is offering a number of support and sponsorship opportunities. For either one seminar only or for any combination of the events from the full programme in the coming year – Mumbai, Bangalore, Dubai, Singapore etc.. Whilst some of the exact dates are to be confirmed, the events will be “paired” so that Bangalore and Mumbai can be undertaken in the same visit .

Sponsors who do not wish to attend all events can, nevertheless, be represented through materials etc. at every event.

The list is only an indication of the packages you might like to consider for your organisation. We would be pleased to discuss these and variations on these arrangements to suit your organisation and how sponsorship and support arrangements for this and other events can be combined.

All fees for UK companies are subject to VAT and payable in the UK unless otherwise agreed.
